Mihhail Zolotarjov

Frontend Developer

PROFESSIONAL SUMMARY

Frontend Developer with over 4 years of hands-on experience creating responsive, high-quality web applications using JavaScript, HTML, CSS, React, and Redux. Skilled in building intuitive user interfaces, integrating APIs, implementing authentication, and supporting payment systems with a strong focus on usability, performance, and maintainable code. Confident working in collaborative teams, solving UI challenges, and using AI tools to improve development speed, streamline routine tasks, and support more efficient product delivery.

WORK EXPERIENCE

Build-game

Tallinn

Front End Web Developer

Aug 2020 — May 2024

- Developed front-end user interfaces for several complex web applications with HTML, CSS3, JavaScript and React.
- Utilized React frameworks to create interactive, responsive, and user-friendly web designs.
- Implemented user authentication, API integration, and payment systems using React and Redux.

Erply

Tallinn

Front End Developer

Feb 2025 — Present

- Developed and maintained web applications at ERPLY using the company's own Go-based templating language (Goerp) alongside HTML, CSS, and JavaScript, enabling tight integration between frontend interfaces and backend logic. Leveraged Goerp's ability to define custom database structures directly from the frontend layer, designing and implementing SQL functions to support complex business requirements. Built and configured Goerp automations that could be executed on demand or on schedule.
