

MIHHAIL ZOLOTARJOV

Frontend Developer

+3725092794 misha.zolotarjov@gmail.com Tallinn, Estonia, Estonia,

PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of commercial experience building responsive web applications and internal product platforms. Skilled in React, JavaScript, HTML, CSS, Redux, API integration, authentication, and complex business workflows. Proven ability to deliver features independently, improve usability, and build production-ready solutions for both customer-facing and internal systems.

WORK EXPERIENCE

Front End Developer Tallinn
Erply Feb 2025 – Jun 2026

- Delivered major product modules for the Hours24 workforce management platform from concept to implementation.
- Built key functionality including asset management, internal company chat, notifications and questionnaires, and leave tracking and request flows.
- Developed frontend features using Goerp, HTML, CSS, and JavaScript, closely integrating UI logic with backend-driven business processes.
- Created SQL functions and configured automations to support complex operational workflows.

Front End Developer Tallinn
Build-game Aug 2020 – May 2024

- Built and maintained frontend interfaces for online betting and gaming platforms using React, JavaScript, HTML, CSS, and Redux.
- Developed account and settings pages, implemented authentication flows, and integrated REST APIs and payment-related functionality.
- Improved mobile usability and responsive layouts across multiple product areas.
- Worked on debugging, redesign tasks, and printable payout check flows for different printer setups.

EDUCATION

Bachelor's in Informatics Tallinn
Tallinn University Sep 2024 - Jun 2027
